CHAPTER 01

01

Brand Foundation

RADIX is an integrated creative and digital solutions company that builds the foundations businesses grow from.

RADIX brings strategy, design, and technology together to help businesses build strong brands, meaningful digital experiences, and intelligent systems, working as one connected partner.

This document introduces who we are, how we work, and the four connected disciplines we bring to every partnership. It also sets out the rules that keep the identity consistent wherever it appears.

radix · Latin · noun

root.

The name comes from the Latin word for root. We use it to describe where our work happens: at the foundations of a business, where ideas become brands, digital experiences, and intelligent systems.

A

Foundations

Clear strategy before visible output.

B

Connected systems

Disciplines that share one structure.

C

Potential for growth

Work built to adapt and extend.

The metaphor is expressed through structure and layout. Literal roots, trees, and leaves are not part of the visual language.

BRAND ESSENCE

Foundational Growth.

The single idea behind every RADIX decision: lasting growth depends on what is built underneath it.

Growth starts beneath the surface.

SURFACE

Strategy

Knowing what to build and why.

Systems

Structures that scale.

Technology

Tools that do real work.

Craft

Detail that holds up.

PURPOSE	To build the foundations that help businesses grow, adapt, and thrive in a changing digital world.
VISION	To become a trusted creative and technology partner, helping businesses build strong foundations for sustainable digital growth.
MISSION	To transform business needs into meaningful creative and digital solutions through strategic thinking, purposeful design, and intelligent technology.

INTEGRATED CREATIVE & DIGITAL SOLUTIONS

One partner connecting the disciplines a business usually has to coordinate on its own.

RADIX IS MORE THAN

A graphic design studio · A conventional advertising agency · A web development shop · An AI content factory · A social media agency · A software vendor

- Strategic consulting
- Creative direction
- Brand identity
- Digital experience design
- Technology & intelligent systems
- AI-assisted production
- Digital growth & communication

radix

Build	We build with purpose,
Connect	connect with intention,
Create	and create for growth.

Six values, each with a design rule.

01

Strong Foundations

Every solution starts from a clear strategic and practical base.

Layouts start from the grid and the surface line.

02

Purposeful Creativity

Creativity serves a meaningful objective.

Every graphic element has a job. No filler shapes.

03

Intelligent Innovation

Technology and new methods are used where they are useful.

Information design over illustration.

04

Connected Thinking

Strategy, design, technology, and communication form one system.

One palette and type system across all four pillars.

05

Continuous Growth

Solutions are built to adapt and evolve.

Strata spacing expands in a Fibonacci progression.

06

Craft & Precision

Every detail is part of the final experience.

Hairline rules, 8px spacing base, exact type specs.

RADIX IS

Intelligent. Strategic. Contemporary. Confident. Premium. Refined. Innovative. Adaptable. Purposeful. Technically capable. Creatively sophisticated. Commercially aware.

RADIX IS NOT

Childish · Cartoonish · Generic · Excessively futuristic · Overly luxurious · Aggressive · Noisy · Cheap · Visually chaotic · Artificially corporate · A generic AI startup · A template agency

Tone of voice: confident and intelligent, never pretentious. Quality is shown through precision, proportion, and space.

THE PROBLEM WE ADDRESS

Brand, website, automation, and content are often handled by separate suppliers. The pieces rarely fit together.

RADIX connects those disciplines from the start, so every output is built on the same foundation.

INTENDED AUDIENCES

A

Founders and leadership teams

Building or rebuilding a brand from its strategy up.

B

Growing businesses

Needing a digital presence that matches their ambition.

C

Operations-minded teams

Looking for practical AI, automation, and digital tools.

D

Marketing teams

Needing consistent content and campaigns over time.

Every meaningful transformation begins with a strong foundation.

Inspired by the Latin word radix, meaning root, RADIX represents the foundations from which ideas become brands, digital experiences, and intelligent solutions.

We bring strategy, creativity, and technology together to build those foundations for businesses. Each discipline informs the others, so a brand decision shapes the website, and the website shapes the systems behind it.

From establishing a distinctive identity to developing a digital presence or creating intelligent systems, RADIX helps businesses move forward with clarity and purpose.

How RADIX writes.

01

Lead with the foundation

Explain the reasoning before the output.

02

Say it plainly

Name the service and the result. Avoid jargon and hype words.

03

Show the connection

Describe how disciplines work together, not as a list.

04

Use the metaphor sparingly

"Root" and "foundation" once per piece, where they add meaning.

05

Claim only what is true

No invented clients, figures, or awards.

WRITE

"We design and build websites that are clear to use and built to evolve."

AVOID

"Cutting-edge, next-generation digital solutions that revolutionise your brand."

PRIMARY TAGLINE

Where Growth Takes Root.

SECONDARY BRAND STATEMENT

Rooted in Strategy. Built for Growth.

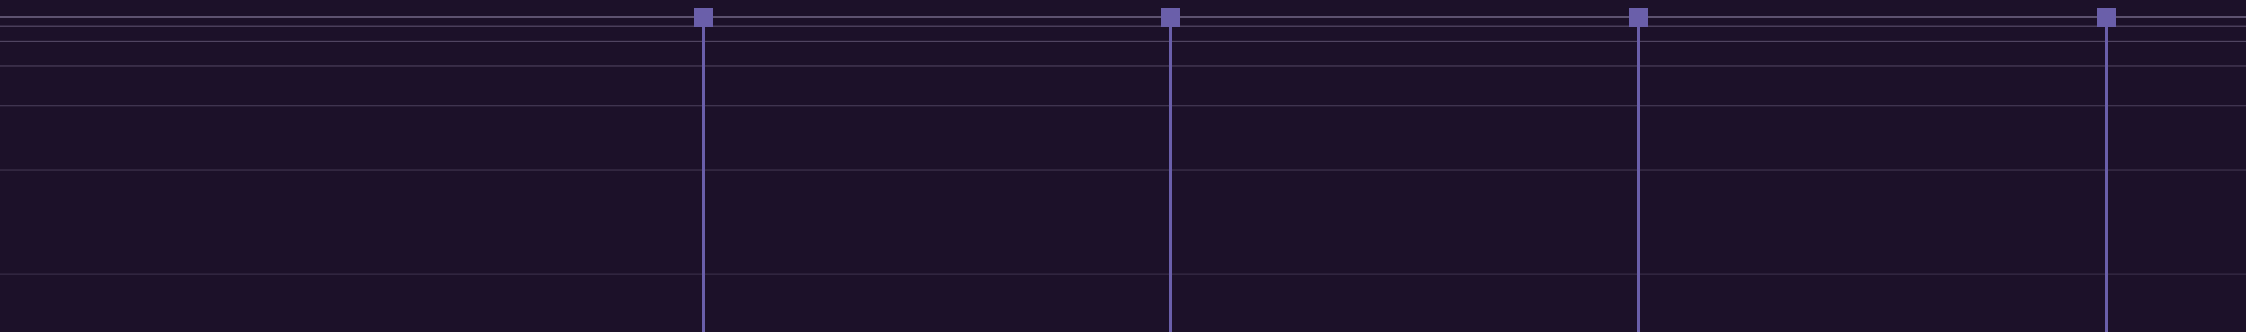

Primary tagline — website hero, covers, closing slides, signage, campaign end-frames. Use once per piece.

Secondary statement — supporting copy, proposals, about sections, social bios. Never set both at the same size.

CHAPTER 02

02

Service Architecture

Four pillars. One foundation.

01

Brand

Build from the Core.

02

Digital

Turn Ideas into Experiences.

03

Intelligence

Make Technology Work Smarter.

04

Growth

Grow with Purpose.

SHARED FOUNDATION

Strategy, research, and one brand system inform every pillar. Clients can start with one and extend into the others.

Brand

Build from the Core.

- Brand strategy
- Naming
- Logo design for new clients
- Brand identity systems
- Visual identity
- Brand guidelines
- Packaging
- Brand applications
- Art direction
- Brand communication systems

Digital

Turn Ideas into Experiences.

- Website design
- Website development
- Landing pages
- UI/UX design
- Digital product design
- SaaS interfaces
- Responsive experiences
- Digital platforms

Intelligence

Make Technology Work Smarter.

- AI-powered video production
- AI-assisted creative production
- Intelligent digital systems
- Workflow automation
- AI integration
- SaaS solutions
- Business process improvement
- Digital tools and systems

Growth

Grow with Purpose.

- Social media management
- Content strategy
- Social media design
- Digital campaigns
- Creative production
- Content development
- Brand communication
- Digital growth initiatives

Pillars share the palette, type, and grid. They are told apart by number, icon, and name, never by a separate colour scheme.

CHAPTER 03

03

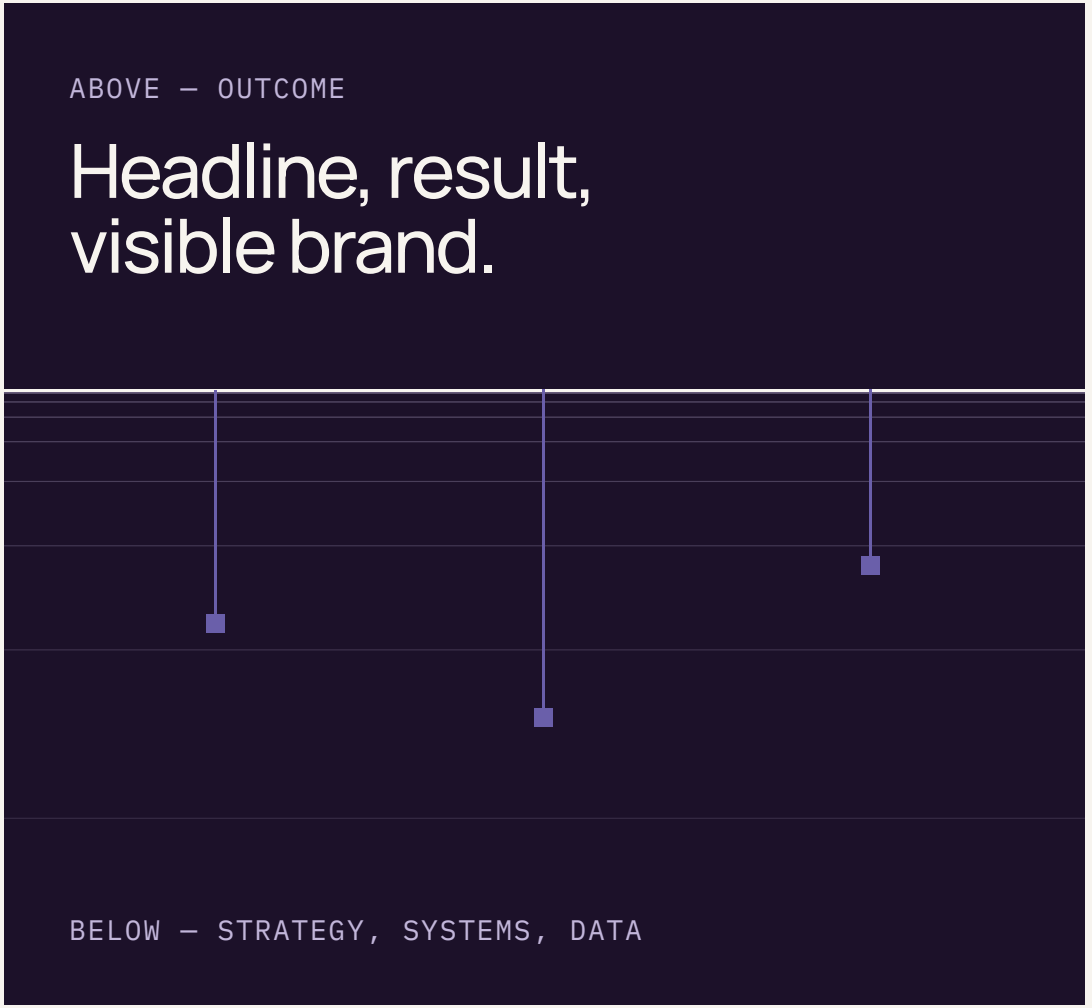

Visual Identity

CONCEPT — THE SECTION

Show the cut, not just the surface.

Like an architectural section drawing, RADIX layouts reveal what sits beneath the visible result. A single horizontal line marks the surface. Outcomes sit above it. Foundations, detail, and data sit below it, connected by vertical lines.

FILE

hor.svg — horizontal lockup. Icon, wordmark, and the descriptor "FOR CREATIVE SOLUTION".

ROLE

The default logo. Use it whenever horizontal space allows.

USE IN

Website header, stationery, documents, presentation covers, email signatures.

VERTICAL — ver.svg

Square and portrait formats: social avatars with room, signage, packaging, closing slides.

WORDMARK — typo.svg

Where the icon is already present nearby, or space is too narrow for the descriptor.

ICON — icon.svg

Favicon, app icon, profile image, small marks, and as a sign-off once the full logo has appeared.

Eight ribbon forms turning around a shared centre.

The icon is the most compact expression of connected thinking: separate parts held in one balanced form. It is used exactly as supplied in icon.svg.

— Always upright, in its supplied orientation.

— One solid colour, from the approved list.

— Never cropped, outlined, or filled with imagery.

— Not a container: nothing is placed inside it.

Clear space = x

x is the x-height of the wordmark, measured on the letter r. Keep at least x free on every side of every lockup.

Measured from the supplied hor.svg: x-height ≈ 168 of 540.85 viewBox units, about 31% of the lockup height. For the icon alone, use 25% of its width.

Smaller than this, switch versions.

Horizontal

220 px wide

50 mm wide

Vertical

140 px wide

32 mm wide

Wordmark

72 px wide

16 mm wide

Icon

16 px wide

5 mm wide

Recommendations based on the legibility of the descriptor line, which is about 8% of the lockup height in both lockups. Test on the actual output before going smaller. Shown at 1:1 on a 1920 px slide.

PRIMARY · 16.5 : 1

Ivory on Aubergine

Aubergine on White / Ivory

ACCENT · 4.8 : 1

White on Electric Violet

SECONDARY · 10.1 : 1

Aubergine on Soft Lavender

SECONDARY · 13.4 : 1

Ivory on Graphite

LIMITED · 3.8 : 1

Violet on Aubergine — large sizes only

Colour versions are the supplied artwork with a single fill applied. Geometry is unchanged.

PRIMARY

Deep Aubergine

#1B1028
RGB 27 16 40

Depth. Main dark ground.

PRIMARY

Electric Violet

#7854F6
RGB 120 84 246

Signature accent. Actions.

SECONDARY

Soft Lavender

#C5B8FF
197 184 255

SECONDARY

Warm Ivory

#F6F3EE
246 243 238

SUPPORT

Graphite

#292631

SUPPORT

White

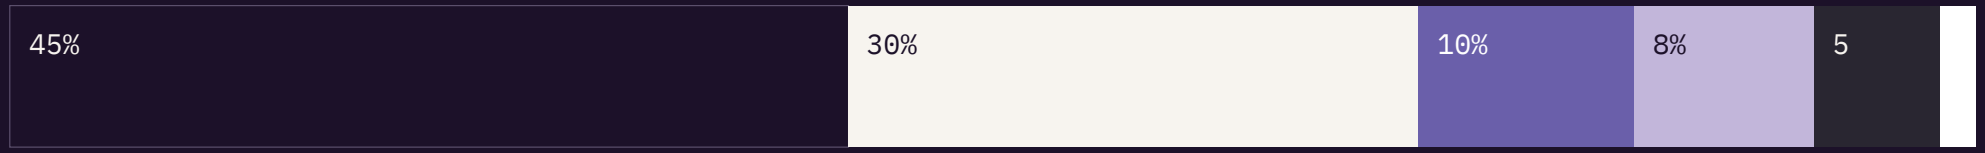

#FFFFFF

Backgrounds: Aubergine, Ivory, White. Graphite for dark UI surfaces.

Text: Aubergine on light, Ivory on dark. Lavender for secondary text on dark.

Accent: Violet for actions, markers, and core lines. Never as a body text colour on dark.

RECOMMENDED PROPORTION

TEXT CONTRAST · WCAG 2.2

Ivory on Aubergine	16.5	AAA all text
Lavender on Aubergine	10.1	AAA all text
White on Violet	4.8	AA all text
Violet on Ivory	4.3	AA large only
Violet on Aubergine	3.8	Large / graphics

AVOID

Lavender / Ivory

Violet / Graphite

Aubergine / Graphite

Violet / Lavender

1.2–2.7 : 1. Fails for text and for meaningful UI graphics.

Aa

PRIMARY

Manrope

Display, headings, body, UI. Weights 300–700. Open Font License.

Aa

SUPPORTING

IBM Plex Mono

Labels, index numbers, data, captions. 400 and 500. Open Font License.

EVALUATION

Manrope — selected. Geometric but warm; clear at 14 px in UI and controlled at 160 px. Contrasts with the serif wordmark without competing. Latin, Cyrillic, Greek, Vietnamese.

Space Grotesk. Distinctive, but its quirks tire in long text.

Inter. Excellent UI face, too widely used to carry identity.

Plus Jakarta Sans. Friendly tone, softer than the brand.

General Sans. Strong fit; Fontshare licence needs review for client and app use.

Display	Takes Root.	96 / 96 · 500 · −3.5%
H1	Build from the Core	64 / 68 · 500 · −3%
H2	Connected disciplines	44 / 50 · 500 · −2%
H3	Workflow automation	28 / 36 · 600 · −1%
H4	Discovery and strategy	20 / 28 · 600 · 0
Body	We design and build websites that are clear to use and built to evolve.	17 / 28 · 400 (L: 20 / 32)
Button	Start a conversation	15 / 20 · 600 · +1%
Label	02 — DIGITAL	Mono 12 / 16 · 500 · +12% caps
Data	1,248 · 12.4% · 09:30	Mono 14 / 20 · 400 · tabular

Specimens enlarged for the slide. Specs are web values; slides use the same ratios at about 1.5×.

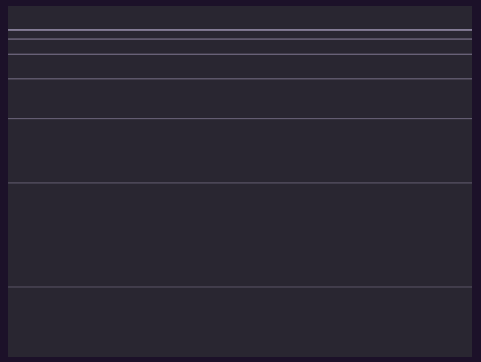

Four elements. Each has a job.

A

Surface line

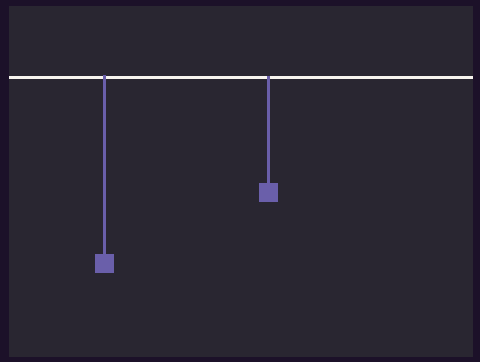

A full-bleed 2 px rule. Divides outcome from foundation. One per composition.

B

Strata

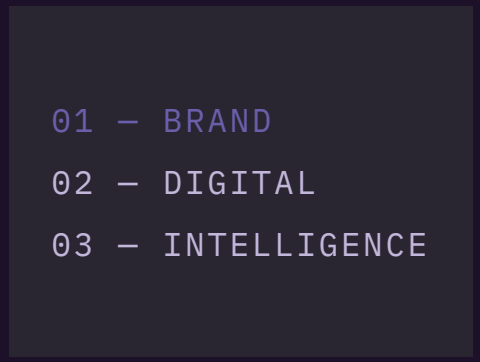

Hairlines below the surface, spaced 8 · 13 · 21 · 34 · 55 · 89 · 144 px. Depth and growth.

C

Core lines

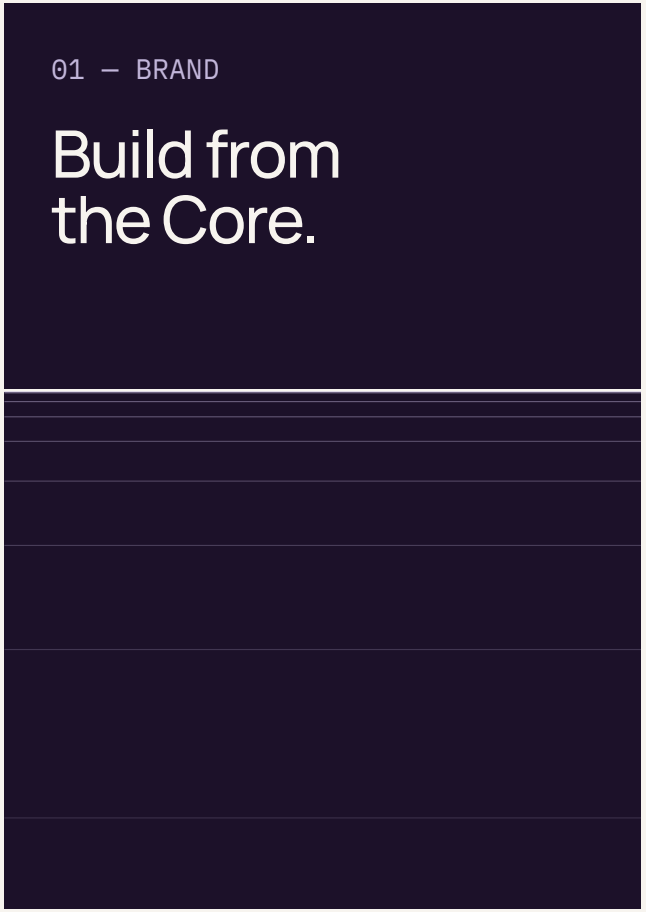

Vertical Violet lines ending in a square node. They connect a headline to its supporting detail.

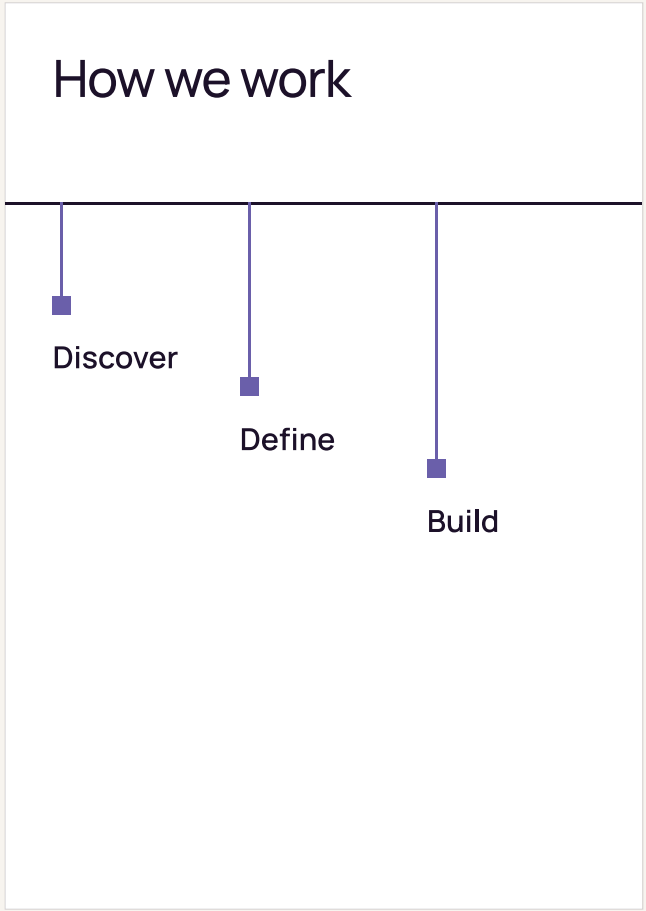

D

Index markers

Mono numbers and labels. They make structure visible: chapters, pillars, steps.

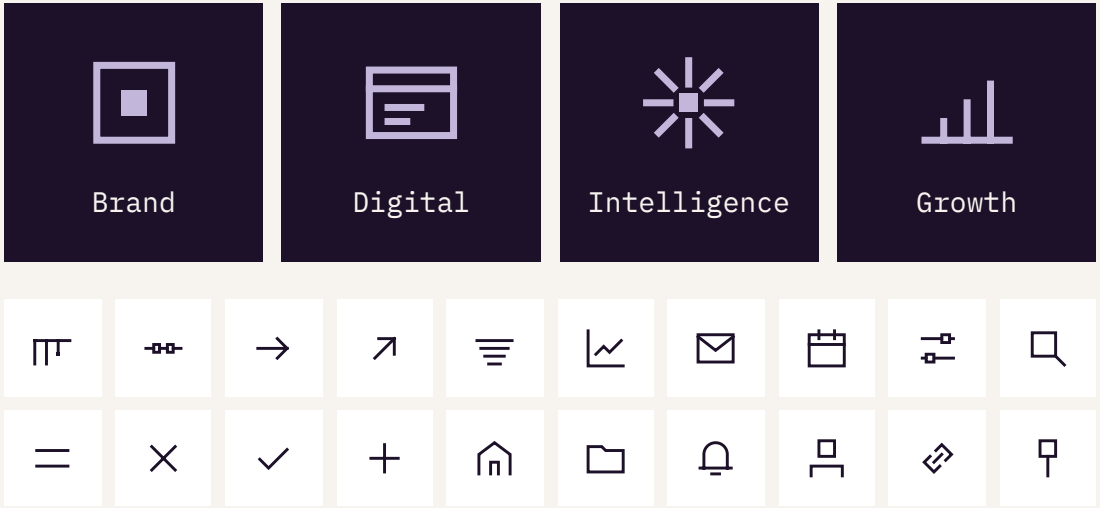

Surface + Strata. Covers, dividers, hero sections.

Surface + Core lines. Processes, timelines, service maps.

Surface + Index. Social posts, campaign frames. Violet ground used sparingly.

Built on the same geometry as the layouts.

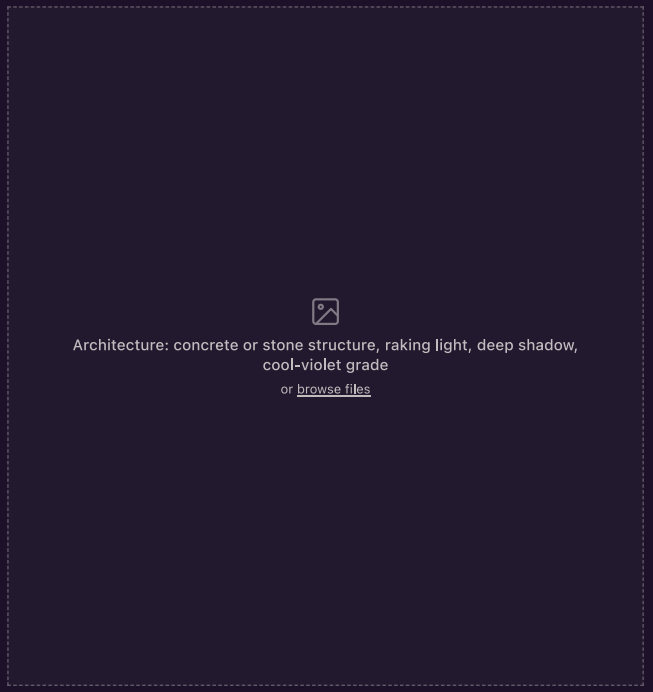

24 px grid, 2 px padding

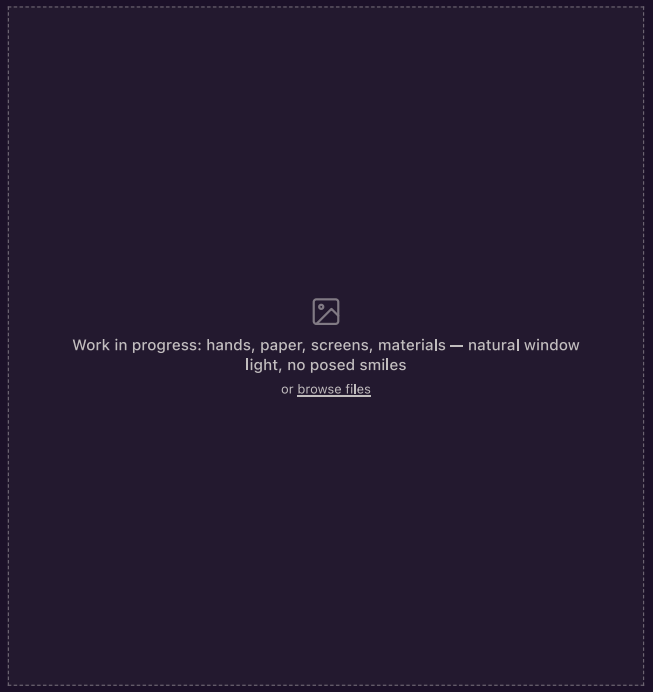

1.5 px stroke, square caps, mitre joins

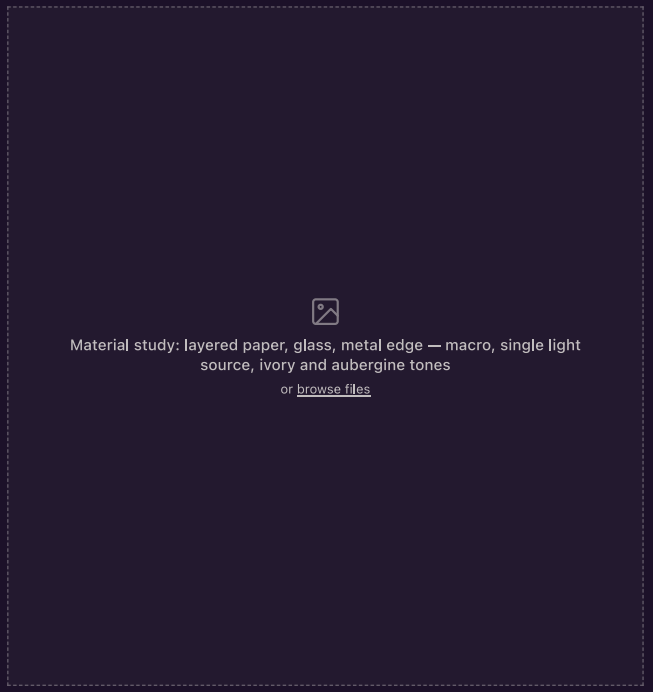

Angles of 0°, 45°, 90° only

Square node as the one filled detail

Independent of the RADIX icon; never derived from it

01 — STRUCTURE

Architectural detail. Foundations, stairs, junctions, cut sections.

02 — PROCESS

Real work in progress. Close crops, natural light, unposed.

03 — MATERIAL

Layered surfaces seen up close. Edges, depth, precision.

DO — One light source. Deep shadows. Muted, cool grade that sits with Aubergine. Generous negative space for type.

AVOID — Glowing brains, robots, holograms, neon networks, literal roots and trees, generic office stock.

CHAPTER 04

04 Applications

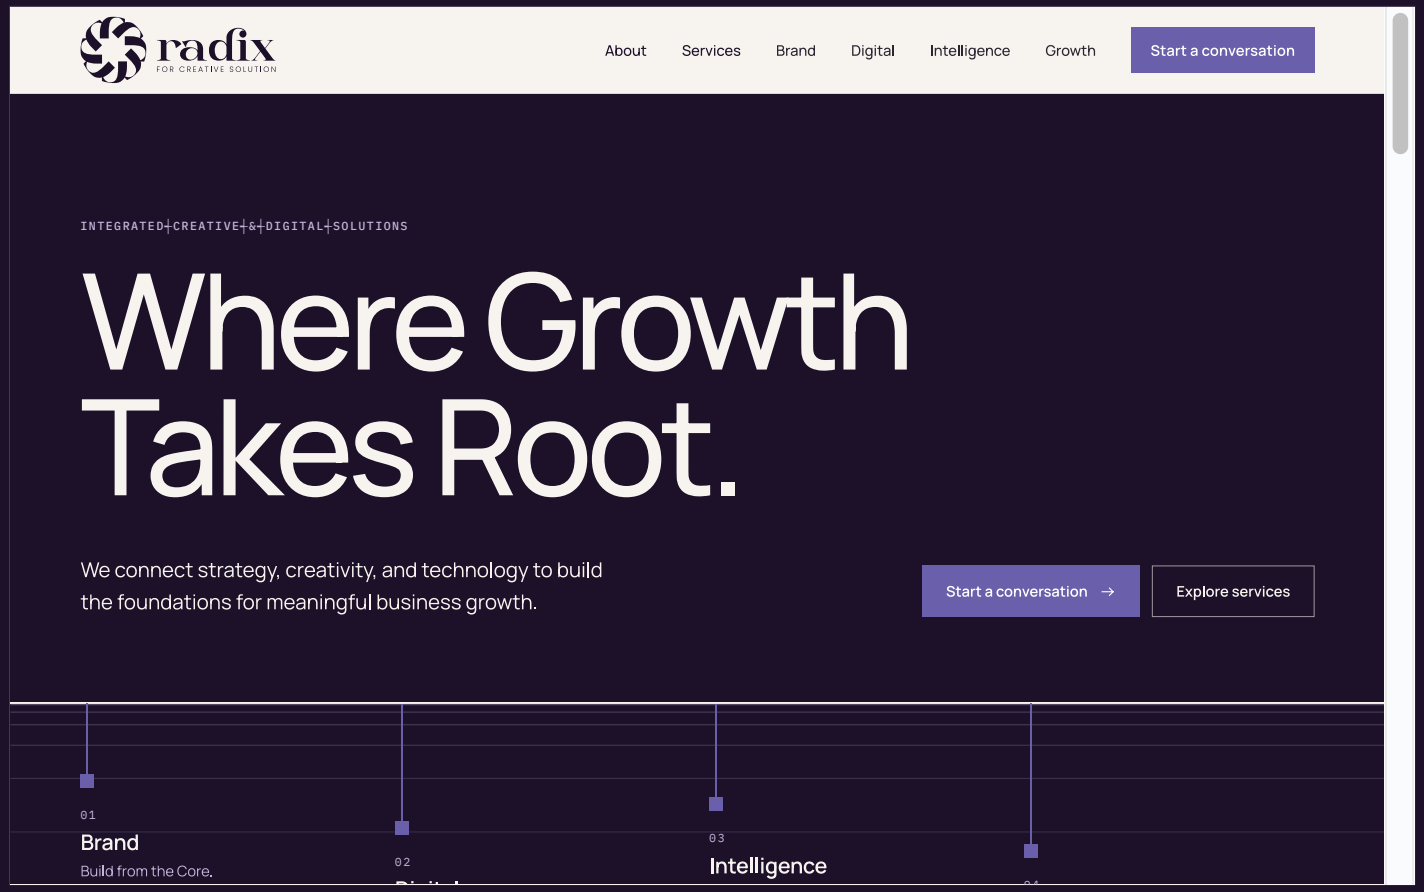

Letterhead A4 Business card 85 × 55 mm, front and back Envelope DL Bracketed text = placeholders

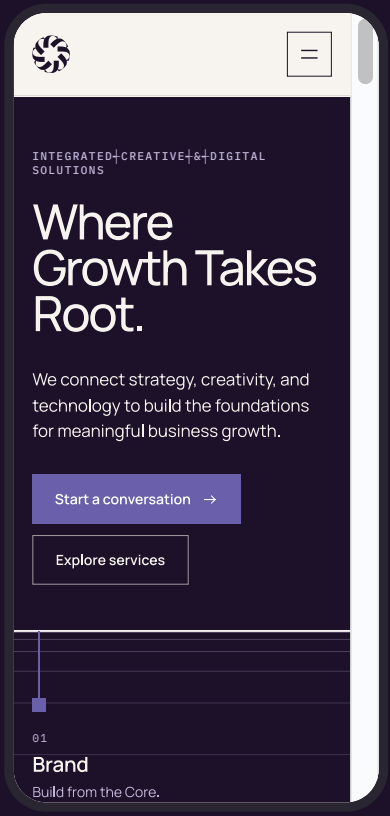

Notebook and proposal folder. Flat, front-facing renders.

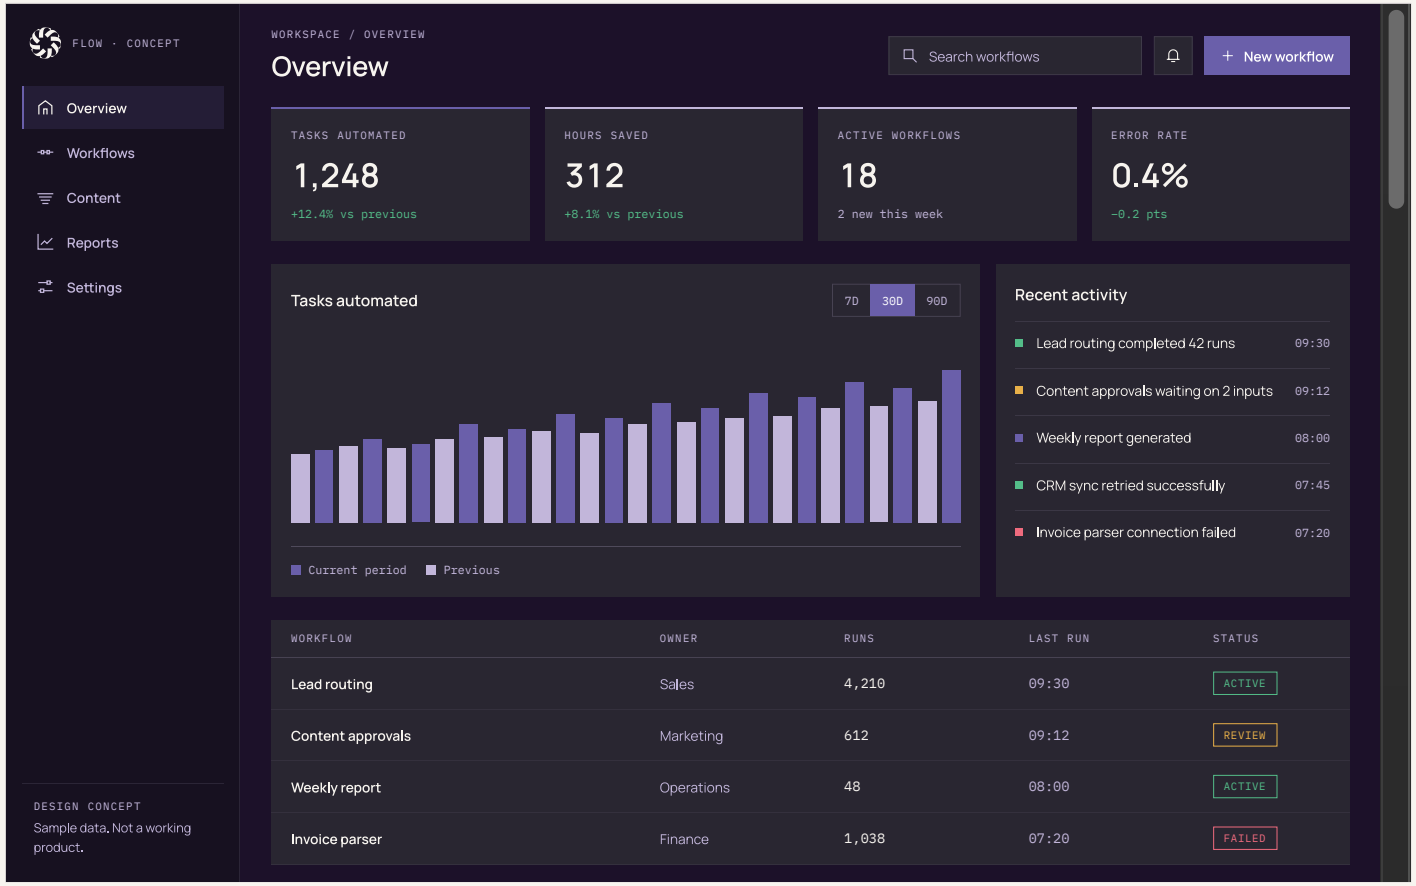

Reception signage. The logo is the supplied hor.svg layered over the photograph, never generated inside it. Use an aubergine-painted wall.

Live prototype: RADIX Website — eight pages, desktop and mobile. 1440 px max width, fluid margins, sticky header.

Practical first.

Graphite and Aubergine surfaces for dark UI; Ivory and White for light.

Violet only for primary actions, focus, and the active series in charts.

Functional status colours are UI-only and never appear in brand communication.

Shown as a design concept. Not a working product.

This is RADIX.

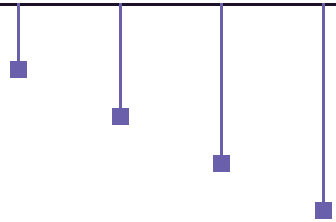

INTRODUCTION

02 — DIGITAL

Turn Ideas into Experiences.

Service

HOW WE WORK

Discover Grow

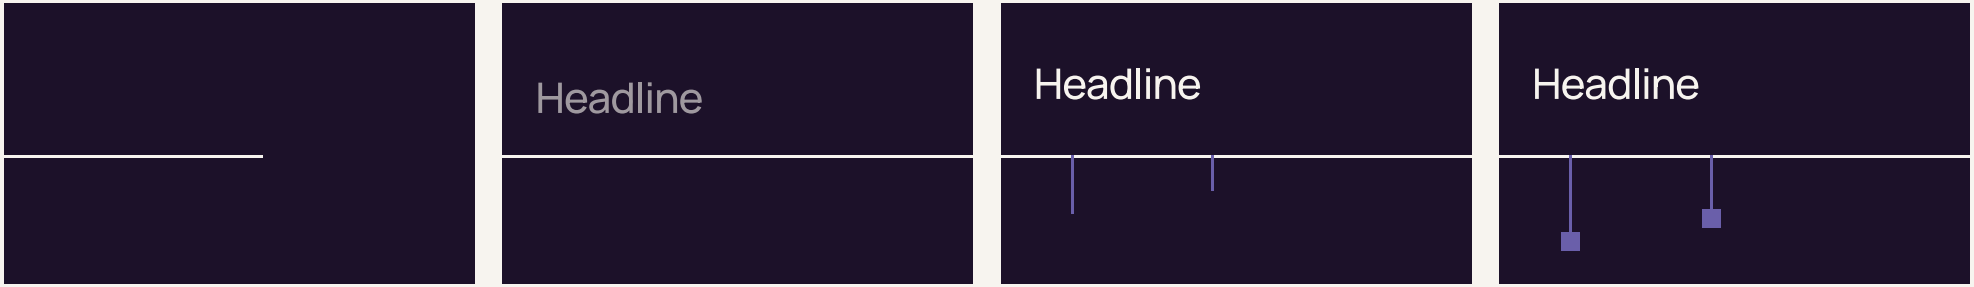

CAMPAIGN

Where Growth Takes Root.

radix

Template types: introduction, service, process, campaign. Each uses one surface line and one ground colour. Square 1080, portrait 1080 × 1350, landscape 1200 × 675.

Structural reveal: surface first, foundation second.

`0–400 ms`

Surface line draws left to right.

`200–600 ms`

Headline rises 24 px from the line and fades in.

`500–900 ms`

Core lines grow downward, staggered 80 ms.

`800–1100 ms`

Nodes and supporting text settle.

Easing

`cubic-bezier(.2, 0, 0, 1)`

Durations

`160 UI · 240 hover · 480 reveal`

Logo

Fades or slides as a whole. Never morphed, spun, or rebuilt.

Before anything goes out.

- ✓ Brand name written RADIX, exactly.
- ✓ Logo placed from the supplied SVG file.
- ✓ Proportions intact; clear space of x.
- ✓ Above minimum size for its version.
- ✓ No AI-generated or retyped logo in images.
- ✓ Hex values match the palette.
- ✓ Text contrast at least 4.5 : 1.
- ✓ Manrope and IBM Plex Mono only.
- ✓ One surface line; every element has a role.
- ✓ No invented clients, figures, or awards.

radix

FOR CREATIVE SOLUTION

Where Growth Takes Root.

ROOTED IN STRATEGY. BUILT FOR GROWTH.
